-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 1-7 are generic to a plurality of disclosed patentably distinct species comprising a printing member having two layers, the uppermost being a protective layer (430/273.1) and both layers being cured, a printing member having one layer comprising matte particles and is uncured (430/270.1), a waterless flexographic plate having an infrared sensitive recording film coated thereon (430/303) or waterless plates coated on aluminum substrates, which cannot be used as a photomask (430/5) while those coated on the transparent substrates may be. Applicant even lays out and the multitude of species described by the specification all of which constitute different searches in different classifications. Applicant must elect an ultimate specific species, i.e. a specific substrate, film, and ultimate use. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

*** The examiner notes that in lines 4 and 5 of the instant claim 1, it appears that applicant may have meant to claim “ablatable coatings *comprising a component* chosen from the group...”, rather than “ablatable coatings chosen from the group...”.
